### **DETAILED ACTION**

1. Claims 1-16, 18-23, 39-45, 47-58 and 61-62 have been examined and are pending.

#### ***Claim Objections***

2. Claims 1-16, 18-23 and 61 are objected to because of the following informalities:  
Regarding 1, 18 and 61 the phrase "Gateway configured to" is not considered as positive recitation. Appropriate correction is required.

#### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:  
  
The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
2. Claims 1-6, 12-16 and 61 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

3. A single means claim, i.e., where a means recitation does not appear in combination with another recited element of means, is subject to an undue breadth rejection under 35 U.S.C. 112, first paragraph. In re Hyatt, 708 F.2d 712, 714-715, 218 USPQ 195, 197 (Fed. Cir. 1983) (A single means claim which covered every conceivable means for achieving the stated purpose was held nonenabling for the scope of the claim because the specification disclosed at most only those means known to the inventor.). When claims depend on a recited property, a fact situation comparable to Hyatt is possible, where the claim covers every conceivable structure (means) for achieving the stated property (result) while the specification discloses at most only those known to the inventor.
4. Regarding claims 1 and 61, applicant amended claims recites a Gateway configured to output signals. Both claims 1 and 61 does not disclose the recited gateway in association with any other elements in the gateway, example. Port.
